

Grants & Contracts

APRIL-JUNE 2009

Thanks to the resourcefulness and competitiveness of our faculty, the Institute received awards totaling \$38,375,982 in grants, contracts, and cooperative agreements from external agencies for the second quarter of 2009. At a time when most states are operating with constrained budgets, our ability to attract dollars for research and Extension from outside sources has become especially crucial. To the principal and co-principal investigators listed below, congratulations. To everyone, we appreciate your support and efforts in seeking external funding.
